

Charlotte

Practice Manager — Fixed Teeth Solutions (FTS)

Ashford

Bexley

Week: Monday 30 June – Friday 4 July 2026 | Focus: FTS Lead Conversion + Patient Systems

FTS PACKAGE PRICES:

£7,997
Starter Package

£11,997
Mid Package

£14,997
Premium Package

Always lead with the monthly finance figure — patients respond better to "from £X/month" than a large lump sum

Your role this week is to build the in-practice systems at **Ashford and Bexley** that turn every FTS enquiry into a booked consultation — and every consultation into a started case. Split your time across both practices. Every task has a **proof upload** and a **status update** section — fill these in daily and WhatsApp your updates to the group by 5pm each day. If something isn't done, say why and what's happening next. **Nadia and Gaurav review all updates on Friday.**

3-MINUTE LEAD RESPONSE RULE

★ **Activate the 3-Minute Lead Response Rule at both practices.**

Every new FTS enquiry — whether it comes in by phone, website form, WhatsApp, or Facebook — must be called back within 3 minutes of arriving. This is not optional.

- Decide right now who is the named lead responder on each shift at Ashford and at Bexley. Write their name down and post it at reception.
- Set up a WhatsApp alert group for each practice so every team member sees the lead the moment it comes in.
- Print the rule and post it visibly at every reception desk: *"EVERY FTS enquiry — call back within 3 MINUTES."*

Why it matters: Research shows that calling a lead within 3 minutes increases conversion by over 100x compared to calling after 30 minutes. The patient enquired because they are ready — don't lose them to a competitor.

PROOF: Photo of the 3-minute rule posted at Ashford reception + Bexley reception — upload to shared Google Drive folder.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

★ **Confirm with Nikhil that the auto-SMS is being activated in GoHighLevel today.**

If a lead is NOT called within 3 minutes, an automatic WhatsApp/SMS fires to the patient. This is set up in GoHighLevel by Nikhil and Rohit.

- Message Nikhil today and ask: "Is the 3-minute auto-SMS live in GHL for Ashford and Bexley?"
- The auto-message reads: *"Hi [Name], thanks for your enquiry about Fixed Teeth Solutions at [Practice]. One of our team will call you shortly — or call us now on [number]."*
- If Nikhil says it's not done — escalate to Nadia immediately.

PROOF: Screenshot of the live auto-SMS in GoHighLevel — ask Nikhil to send you a screenshot and forward it to the Nadia & Gaurav WhatsApp group.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Brief all front desk and admin staff at Ashford and Bexley on the FTS lead process.**

Every person who might pick up the phone or see a walk-in enquiry needs to know exactly what to do.

- **What is an FTS enquiry?** Anyone asking about dental implants, fixed teeth, missing teeth, or alternatives to dentures.
- **What to say on the first call:** "Thank you for calling about Fixed Teeth Solutions. We offer a completely free, no-obligation consultation. The treatment starts from £7,997 all-inclusive, and we have 0% finance available so many patients pay from just £X per month. Can I book you in for a free consultation this week?"

- **Who handles it:** The named lead responder on that shift. If unavailable — the next most senior person. Never let a lead go to voicemail without a call-back within 3 minutes.
- **How to log it:** Enter the lead into the Google Sheet immediately (see next task).

Run this briefing at both Ashford and Bexley today — even if it is just 5 minutes at the start of shift.

PROOF: Photo of your team at the briefing, or a photo of the printed briefing sheet posted in the staff area — upload to shared folder.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Set up the FTS Lead Tracking Google Sheet for Ashford and Bexley.**

This is how we track every lead from first contact to started case. Without this, we cannot see where leads are dropping off.

- Create a Google Sheet with these columns: Date | Patient Name | Phone | Source (Google/Facebook/Walk-in/Referral/WhatsApp) | Time Lead Received | Time Called Back | Called Within 3 Minutes? (Y/N) | Outcome of Call | Consultation Booked? (Y/N) | Consultation Date
- Create one tab for Ashford and one tab for Bexley.
- Share the sheet with Nadia and Gaurav (share link via WhatsApp today).
- Every lead from Monday onwards must be logged the same day it comes in.

PROOF: Screenshot of the live Google Sheet — share the link with Nadia and Gaurav today.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

FTS PRICING — STAFF MUST KNOW THESE

☐ **Print and laminate the FTS pricing reference card for all reception and admin staff.**

Every member of staff who speaks to a patient must be able to quote the prices without hesitation.

- Starter Package: £7,997 all-inclusive (from £X per month on 0% finance)
- Mid Package: £11,997 all-inclusive (from £X per month on 0% finance)
- Premium Package: £14,997 all-inclusive (from £X per month on 0% finance)
- **Always lead with the monthly figure first** — say "from £X per month" before you mention the total. It sounds much more affordable.
- To get the monthly finance figures: contact Rohit or the finance provider today. Do not leave this blank — you need it to answer patient questions.

Laminate one copy per desk at both Ashford and Bexley.

PROOF: Photo of the laminated pricing card at Ashford reception + Bexley reception — upload to shared folder.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

GOOGLE REVIEWS

★ **Ask every lead and every patient for a Google review after any positive interaction.**

Google reviews directly improve our ranking in local search and make new patients trust us before they even call. This must become a daily habit starting today.

- **When to ask:** After any positive call with a lead, after a patient attends a consultation, after a treatment visit, after any warm interaction.
- **How to ask:** Send a text message immediately after the interaction. Script: *"Hi [Name], it was great speaking with you today! Would you mind leaving us a quick Google review? It takes about 30 seconds and really helps other patients find us: [Google Review Link]. Thank you so much!"*
- **Where to get the Google Review link:** Go to your Google Business Profile → click "Ask for reviews" → copy the link. Or ask Sachin to give you the direct link for Ashford and for Bexley.
- Post the review link at reception so any team member can send it instantly.

PROOF: Screenshot of a review request SMS being sent — upload to shared folder daily (one screenshot per day this week is enough).

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Set a review target and track your starting number.**

- Right now — check the current Google review count for Ashford and for Bexley. Screenshot both.
- **Target this week: 5 new Google reviews across Ashford and Bexley combined.**
- Pull a list of satisfied FTS and full mouth implant patients from the last 12 months who have not already left a review. Send this list to Rohit — he will set up an automated review-request SMS via GoHighLevel to each of them this week.

PROOF: Screenshot of current Google review count for Ashford (before) + Bexley (before) — upload today. Upload again on Friday to show the change.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

BEFORE & AFTER CONTENT

☐ **Add before/after photo and video consent forms to all new FTS patient packs starting today.**

We cannot use patient photos or videos in our marketing without a signed consent form. From today, every FTS patient must sign one before we take any photos or videos.

- Get the consent form from Fatima — she is preparing and distributing them to all practices this week.
- If you have not received the form from Fatima by Tuesday lunchtime — message her directly.
- The consent form covers: social media posts, paid advertising, the website, and before/after comparisons.

- File the signed form in the patient's notes immediately.

PROOF: Photo of the consent form included in the patient pack at both practices — upload to shared folder.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Identify 2–3 FTS patients at Ashford and Bexley willing to do a short video testimonial.**

These are patients who have completed FTS treatment and are happy with their results. A 30–60 second video of them talking about their experience is extremely powerful for social media and paid ads.

- Approach patients in person during their visit, or call them — keep it casual: *"We'd love to feature your results on our social media. It's a short 1-minute video and you can approve everything before it goes live. Would you be happy to help us?"*
- The filming does not have to be done by Fatima — any team member can film it on a smartphone. A phone propped on a stand in a well-lit room is perfectly fine.
- Once you have confirmed patients — message Fatima and Abhishek with the names, dates, and which practice so they can plan filming.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Brief the clinical team on the FTS photo protocol.**

Before/after photos are essential for our marketing. We need a consistent standard so images look professional enough to use.

- **When to photograph:** Before treatment starts (missing/broken tooth) AND after the crown is fitted (final result). Do it before the patient leaves the chair.
- **How to photograph:** Same angle every time — straight-on retracted smile (use a lip retractor if available), same lighting, same distance. Take 3 shots and keep the best one.
- Ensure consent is signed before any photo is taken.
- Save photos in the practice folder in Google Drive — ask Fatima for the folder link.

PROOF: Photo of the standardised photo setup at the clinical chair (angle, lighting) — upload to shared folder as a reference.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

FTS CONSULTATION JOURNEY

★ Set up the full FTS consultation journey at both practices — step by step.

Every FTS lead must go through a clear, consistent process. Walk through these steps with your clinical team today:

1. **Enquiry received** — logged in Google Sheet, lead responder notified immediately
2. **Called back within 3 minutes** — if no answer, auto-SMS fires + call again in 1 hour
3. **Consultation booked** — confirmation SMS sent immediately with date, time, address and what to expect
4. **Reminder sent** — 24 hours before AND 2 hours before (Rohit sets up in GHL)
5. **Consultation** — CBCT scan or X-ray taken, full treatment plan presented
6. **Finance presented first** — lead with "from £X per month" before giving the total cost
7. **Surgery date booked before patient leaves** — this is the goal of every consultation

Make sure every person in your team knows their role in each step.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ Write a one-page FTS consultation script for your team.

This script is a guide for whoever presents the treatment plan to the patient. It does not need to be word-for-word — it is a reference tool.

- **Opening:** "Based on your scan, you are a great candidate for Fixed Teeth Solutions. Let me show you exactly what we'd do and how it changes your life."
- **On price:** "Many of our patients spread the cost with 0% finance — it works out from £X per month, which is less than most people's car payment."
- **Objection — "It's too expensive":** "I completely understand. That's why we offer 0% finance — most patients pay from £X/month with nothing upfront. Would you like to see how that works for you?"
- **Objection — "I need to think about it":** "Of course. While you're here, shall we just pencil in a provisional date? You can always move it — but having a date often helps patients feel more certain."
- **Close:** "I'd love to get you started. What week works best for you to begin?"

Share the draft with Nadia for review by end of Wednesday.

PROOF: Photo or PDF of the consultation script — upload to shared folder.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ Book a 30-minute team briefing at each practice.

Gather your whole team — reception, clinical staff, dental nurses — for a 30-minute briefing on the FTS growth push.

- Explain what Fixed Teeth Solutions is, who the target patient is, and why this is a priority.

- Walk through the 3-minute rule and the consultation journey above.
- Share the pricing — everyone must know the 3 packages and be able to quote the monthly finance figure.
- Answer any questions your team has.

Do Ashford on Wednesday morning and Bexley on Wednesday afternoon (or vice versa).

PROOF: Photo of the team briefing at Ashford + Bexley — upload to shared folder.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

LOCAL REFERRAL PARTNERS

☐ Identify and contact 5 local referral partners in Ashford.

Referral partners are local healthcare businesses whose patients might need Fixed Teeth Solutions. We offer them a simple arrangement: refer a patient who starts FTS treatment and we send a personalised thank-you gift.

- **Who to target:** GPs, care homes, hearing clinics, pharmacies, opticians, denture labs — anywhere that sees older patients who may have missing or failing teeth.
- **What to say when you visit or call:** *"Hi, I'm Charlotte from [Practice Name] in Ashford. We specialise in permanent dental implant solutions for patients with missing or failing teeth. We'd love to set up a referral arrangement — if you ever have a patient who needs this, we'll look after them brilliantly and send you a thank-you gift for every referral that starts treatment. Would you be open to that?"*
- Write a short, professional letter to leave with them. Keep a note of who you contacted and when.
- Start delivering/posting today — aim for at least 3 visits today and 2 more by Thursday.

PROOF: Photo of letters printed and a list of the 5 Ashford businesses you contacted (name, address, date visited) — upload to shared folder.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ Identify and contact 5 local referral partners in Bexley.

Same exercise as Ashford — same type of businesses, same offer, same script. Aim to deliver or post letters to 5 local businesses in the Bexley area by end of Wednesday. Keep a record of everyone you contact.

PROOF: Photo of letters for Bexley + list of 5 businesses contacted — upload to shared folder.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

PATIENT REFERRAL SCHEME

★ Launch the FTS patient referral scheme at Ashford and Bexley.

This scheme turns your existing FTS patients into your best marketing channel. It costs nothing to run and can bring in high-quality leads.

- **The offer:** "Refer a friend or family member who starts Fixed Teeth Solutions treatment and you receive £200 off your next treatment as a thank-you."
- **How to tell patients:** Hand a referral card to every active FTS patient who comes in this week — when they arrive, after treatment, or at any appointment.
- Print referral cards today — ask Abhishek for the digital version you can also forward via WhatsApp.
- Script for handing over the card: *"We have a referral scheme at the moment — if you know anyone with missing teeth or uncomfortable dentures, pass them our details and if they start treatment you'll get £200 off your next visit as a thank-you from us."*

PROOF: Photo of referral cards printed and ready at reception (both practices) — upload to shared folder.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

REACTIVATION CAMPAIGN

★ Pull your reactivation list and send it to Rohit today.

Your reactivation list is all the FTS enquiries from the last 18 months who never started treatment. These are warm leads — they already showed interest. We are re-contacting them with our new pricing.

- Go into your patient management system and pull every patient who enquired about dental implants, FTS, or full arch treatment in the last 18 months but did not start treatment.
- Export the list with: Name, Phone, Email, Location (Ashford or Bexley), Date of original enquiry.
- Send the list to Rohit by WhatsApp or email today. He will load them into GoHighLevel and trigger an automated re-engagement campaign.
- **The re-engagement messages will include the updated FTS package prices (£7,997 / £11,997 / £14,997) and a free consultation offer.** Rohit builds this — you just need to send the list.

PROOF: Screenshot of the reactivation list sent to Rohit — upload to shared folder. Then ask Rohit to confirm the campaign is set up and forward his confirmation screenshot.

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

IN-PRACTICE DISPLAY + GBP CHECK

- ☐ Check the Google Business Profiles for Ashford and Bexley.

The Google Business Profile is often the first thing a patient sees when searching "dental implants near me." It needs to show FTS clearly.

- Search "dental implants Ashford" and "dental implants Bexley" on Google — does your practice appear? What does it show?
- Go into each GBP (or ask Sachin to check): Is "Dental Implants" listed as a service? Is "Fixed Teeth Solutions" mentioned? Are the opening hours correct? Is the phone number right?
- If anything is missing or wrong — message Sachin immediately. He is responsible for fixing all GBP issues this week.

PROOF: Screenshot of both GBPs showing FTS and dental implants listed as services — upload to shared folder.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Set up an FTS display in the waiting room at both Ashford and Bexley.**

Patients already in your waiting room should see FTS information — they may not know you offer it, or they may know someone who needs it.

- Display to include: an implant model or before/after brochure, a simple "From £7,997" poster, and a QR code linking to the free consultation booking page.
- Get the QR code link from Rohit — he is building the FTS landing page this week.
- Ask your implant supplier representative for free point-of-sale display materials — they often provide models and brochures at no cost.

PROOF: Photo of the FTS display live in the waiting room at Ashford + Bexley — upload to shared folder.

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

WEEKLY REPORT — DUE TO NADIA & GAURAV BY 4PM

★ Send your weekly KPI report to Nadia and Gaurav by 4pm Friday.

This is your written summary of the week. It takes about 15 minutes to write. Copy this list and fill it in:

1. Total FTS enquiries received this week (Ashford + Bexley)
2. % of leads called back within 3 minutes
3. FTS consultations booked this week
4. Consultations attended (show rate %)
5. FTS cases started this week
6. New Google reviews gained this week (Ashford + Bexley — compare to Monday's starting number)
7. Before/after consent forms signed this week
8. Reactivation list: sent to Rohit? Y/N
9. Partnership letters delivered: how many businesses approached
10. Any blockers, issues, or things that didn't get done — and why

Send via WhatsApp or email — a voice note summary is also fine as a supplement, but the written numbers must come in written form.

PROOF: Screenshot or photo of your completed KPI report — send to Nadia and Gaurav by 4pm. No exceptions.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ Review the lead log and identify patterns.

Look at every lead who came in this week but did not book a consultation. For each one, note: Why did they not book? (Price? Wrong treatment? Couldn't reach them? Appointment times?) Note the top patterns and share with Nikhil and Nadia — this helps us improve the ad targeting and the landing page.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ Confirm filming slots booked for FTS patient testimonials next week.

Of the 2–3 patients you identified on Tuesday — have you confirmed a specific date and time for their video? Book this now. Any team member can film — phone propped on a stand in good natural light is perfectly fine. Message Abhishek and Fatima with the confirmed slots.

PROOF: Calendar screenshot or WhatsApp confirmation showing filming is booked — upload to shared folder.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Follow up with all referral partners contacted this week.**

Of the 10 businesses you approached (5 Ashford + 5 Bexley) — have any responded? Call anyone you visited who hasn't responded yet. Log the outcome for each business in the Google Sheet. Share the updated log with Nadia and Gaurav.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Plan next week's consultation capacity.**

Check the diary: how many FTS consultation slots are available next week at Ashford and Bexley? Are there enough? If ads are generating leads and there are no slots available — that is lost revenue. Flag any gaps to Nadia today so they can be filled.

STATUS UPDATE (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

Weekly KPI Checklist — Everything must be ticked by Friday 4pm

- | | |
|--|---|
| ☐ 3-Minute Rule active at Ashford & Bexley | ☐ Auto-SMS live in GHL (confirmed with Nikhil) |
| ☐ Lead tracking Google Sheet live & shared | ☐ All staff briefed on FTS lead process |
| ☐ Pricing laminated at both reception desks | ☐ Review requests sent to every lead & patient |
| ☐ 5+ new Google reviews this week | ☐ Consent forms in all new FTS patient packs |
| ☐ 2–3 testimonial patients identified & confirmed | ☐ Consultation script written & shared with Nadia |
| ☐ 30-min team briefing done at both practices | ☐ 10 referral partners approached (5 per location) |
| ☐ Referral cards printed & handed out | ☐ Reactivation list sent to Rohit |
| ☐ GBPs checked — FTS services listed | ☐ FTS display live in both waiting rooms |
| ☐ KPI report sent to Nadia & Gaurav by 4pm Fri | ☐ All proof uploaded to shared folder daily |
