Landing Pages

Week: Monday 30 June – Friday 4 July 2026 | Report to: Nadia & Gaurav by 4pm Friday

FTS PRICES:

£7,997
Starter

£11,997
Mid

£14,997
Premium

Always lead with monthly finance figure

Every other team member depends on your infrastructure being in place this week. Three priorities in strict order: **(1) Tracking** — campaigns cannot launch without it; **(2) GHL automations** — every lead must be captured and followed up automatically; **(3) Landing pages** — every ad needs a destination. Do not leave the office on Thursday until Richard and Nikhil have confirmed campaigns are tracking correctly. Every task has a status box — update daily and send Nadia and Gaurav a status message by 5pm each day.

FIXED INSTALLATIONS — PRIORITY 1: TRACKING

FIXED: GTM + TRACKING TAGS — MUST BE DONE BEFORE CAMPAIGNS LAUNCH**★ Install and verify Google Tag Manager on all 4 practice websites. Create and publish all tracking tags.**

For each of the 4 practice websites, the following tags must be created in GTM and confirmed firing:

- **Google Ads Conversion tag:** fires on FTS form submission (thank you page load OR form submit event). Test using GTM Preview mode.
- **Google Ads Phone Call tag:** fires when the call tracking number is clicked on mobile
- **Meta Pixel — PageView:** fires on all pages
- **Meta Pixel — Lead event:** fires when any FTS form is submitted
- **Meta Pixel — Contact event:** fires when WhatsApp button is clicked
- **GA4 events:** page_view | form_submit | click_call | click_whatsapp | booking_complete

Test EVERY tag using GTM Preview before publishing. Do not publish until all tags pass the preview test. Send Richard a confirmation message when tracking is live.

PROOF: Screenshot of GTM Preview showing each tag firing on the correct trigger — send to Richard and Nikhil.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

★ Set up call tracking numbers — one per location per channel.

Create 12 unique call tracking numbers in total:

- Ashford: Google Ads number | Meta Ads number | Organic/website number
- Bexley: same 3 numbers
- Barnet: same 3 numbers
- Rochester: same 3 numbers

All numbers must route to the correct practice landline. Write up the full list (location | source | tracking number | routes to) and share with Nikhil, Richard, Sachin and Nadia today.

PROOF: Call tracking number list — share with Nikhil, Richard, Sachin and Nadia.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

★ Build the FTS lead pipeline in GoHighLevel with these exact 7 stages.

Create the pipeline now — Nikhil and the practice managers need it in place before ads go live:

1. New Lead (uncontacted)
2. Attempted Contact (called, no answer)
3. Contacted (spoke to patient)
4. Consultation Booked
5. Consultation Attended
6. Treatment Started
7. Lost / Not Interested

Create one pipeline per location OR one pipeline with a "Location" custom field — confirm with Nadia which she prefers. Share a screenshot with Nadia and Gaurav once live.

PROOF: Screenshot of GHL pipeline live with all 7 stages — send to Nadia & Gaurav.

STATUS (FILL IN DAILY)

Next step: _____

TUESDAY 1 July

Day 2 of 5

FIXED: GHL AUTOMATIONS

★ **Build the 3-Minute Auto-Response automation in GHL — this is the #1 automation for practice managers.**

Every new FTS lead must receive an instant response and every practice manager must be notified if they haven't called back within 3 minutes. Build this 6-step sequence:

1. **Immediately on lead creation:** SMS to patient — "Hi [FirstName], thanks for your enquiry about Fixed Teeth Solutions at [Practice Name]. Our team will call you within 3 minutes! Or call us now: [number]"
2. **+3 minutes — if lead is still in "New Lead" stage:** Internal task/notification to practice manager — " LEAD NOT CALLED — [Name] [Phone] — contact NOW"
3. **+1 hour — if still not contacted:** SMS to patient — "Hi [FirstName], we're sorry we missed you! When is a good time for us to call about your free FTS consultation? Reply anytime."
4. **+24 hours:** Email to patient — "Your Free Fixed Teeth Solutions Consultation Is Waiting" — include the 3 package prices (£7,997 / £11,997 / £14,997), finance info, and a booking link
5. **+3 days:** SMS — "Hi [FirstName], we'd love to help you with permanent fixed teeth. Our free consultation is still available. Reply YES to book."
6. **+7 days:** Email with a before/after image and a short patient story

Test the full sequence using a test contact before marking as done. Screenshot the automation workflow.

PROOF: Screenshot of the automation workflow in GHL + confirmation you have done a test run — send to Nadia, Gaurav and Nikhil.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Build the Consultation Reminder automation.**

Trigger: lead moves to "Consultation Booked" stage. Sequence: (1) Immediately — confirmation SMS + email with date, time, address and what to expect at the consultation (2) -24 hours before — reminder SMS: "Your free FTS consultation is tomorrow at [time] at [practice]. See you then!" (3) -2 hours before — final reminder SMS

Next step: _____

FIXED: FTS LANDING PAGES — MUST BE LIVE BY 5PM WEDNESDAY

★ **Build or update the FTS landing page for all 4 locations. Live by 5pm Wednesday.**

Richard and Nikhil need the landing page URLs by 5pm Wednesday to launch ads on Thursday.

Each page must include:

- **Above the fold:** H1 with location name + "from £7,997", a before/after image, and a prominent "Book Free Consultation" button (bright contrasting colour)
- **Package section:** 3 packages clearly displayed — Starter £7,997 | Mid £11,997 | Premium £14,997 — with monthly finance figure under each (confirm finance figures with Gaurav/finance provider)
- **Finance section:** "From £X/month — 0% Finance Available" shown prominently
- **Social proof:** Google reviews widget, number of completed cases, trust badges
- **Before/after gallery:** Minimum 3 FTS cases (get images from practice managers)
- **FAQ section:** 5+ questions using local keywords (content from Sachin's brief)
- **Embedded Google Map** for that location
- **Contact/booking form** that connects directly to the GHF FTS pipeline
- **WhatsApp floating chat button**
- **Call tracking number** in the header and footer (use numbers from call tracking setup)

Send the live URLs to Nikhil and Richard by 5pm Wednesday — no later.

PROOF: Live URLs for all 4 landing pages — send to Nikhil and Richard by Wednesday 5pm.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Build the Open Day registration landing page.**

Fields: First name, Last name, Phone, Email, Which location? (dropdown with all 4 practices), "What are you interested in?" (FTS / General dental / Both). On submit: contact created in GHF with tag "Open Day Registrant", automated confirmation SMS + email sent, internal notification to relevant practice manager. Page URL: /open-day or /fts-open-day. Send live URL to Nikhil and Sachin.

PROOF: Live Open Day registration page URL — send to Nikhil and Sachin.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

FIXED: REACTIVATION + END-TO-END TESTING

★ **Build the Reactivation campaign in GHL for old FTS enquiries.**

The practice managers (Charlotte, Sophie, Serena) will send you lists of patients who enquired about FTS in the last 18 months but did not start treatment. Load these into GHL and trigger the following 3-step re-engagement sequence:

- **Day 1 SMS:** "Hi [FirstName], we've been thinking about you! We have exciting new Fixed Teeth Solutions packages — starting from £7,997 all-inclusive with 0% finance. Would you like a free consultation to find out more? Reply YES or call [number]."
- **Day 2 Email:** Full package breakdown (£7,997 / £11,997 / £14,997 with monthly finance figures), before/after images, free consultation CTA
- **Day 5 SMS:** "Hi [FirstName], just following up — our free FTS consultation slots are filling up this month. Would you like to book? Reply YES."

PROOF: Screenshot of reactivation campaign workflow in GHL — send to Nadia, Gaurav and all practice managers.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

★ **End-to-end test — all 4 locations must pass before campaigns go live.**

Submit a test enquiry from each of the 4 FTS landing pages. For each location verify: (1) Contact created in GHL pipeline ✓ (2) Auto-SMS fired within 3 minutes ✓ (3) Call tracking captured the click ✓ (4) GA4 logged the form_submit event ✓ (5) Google Ads conversion registered ✓ (6) Meta Pixel fired the Lead event ✓. Do NOT tell Richard and Nikhil the campaigns are ready until all 4 locations have passed this test.

PROOF: Test lead screenshots from all 4 locations showing pipeline + SMS + tracking all working — send to Nikhil and Nadia before Thursday 3pm.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Build no-show and post-consultation nurture sequences.**

No-show: +30 min SMS → "We missed you today — can we rebook your free FTS consultation? Reply YES." Post-consultation (patient attended but didn't start): Week 1 email → Week 2 SMS → Month 1 before/after email → Month 2 new offer SMS → Month 3 check-in (repeat to Month 6).

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

REPORTING + SCHEMA

★ Send weekly developer report to Nadia and Gaurav by 4pm.

Fill in and send: (1) GHF FTS pipeline: live Y/N (2) 3-min auto-SMS automation: live + tested Y/N (3) Landing pages live: list which locations (4) Open Day page live: Y/N (5) Reactivation campaign built: Y/N (6) Tracking confirmed — Google + Meta + GA4: Y/N (7) Call tracking numbers deployed to all teams: Y/N (8) End-to-end test passed for all 4 locations: Y/N (9) Outstanding items for Week 2 + who is blocked on what.

PROOF: Developer weekly report — send to Nadia & Gaurav by 4pm.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ Implement schema markup on FTS pages (from Sachin's brief).

Implement LocalBusiness + Dentist schema, FAQPage schema, Offer schema for free consultation, Event schema for the Open Day page. After implementing each page, test at search.google.com/test/rich-results. Share test results with Sachin.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ Set up Meta Conversions API (CAPI).

CAPI is server-side tracking that sends conversion data directly from the server to Meta — it bypasses iOS privacy restrictions and significantly improves Meta's ability to optimise campaigns. Use a WordPress plugin (e.g. PixelYourSite Pro with CAPI feature) or a custom implementation. Confirm with Richard once live.

STATUS (FILL IN DAILY)
