

Richard

Paid Ads Specialist — Google Ads & Facebook/Meta Ads

Google Ads Meta Ads All Locations Open Day

Week: Monday 30 June – Friday 4 July 2026 | Report to: Nikhil (3pm Fri) → Nadia & Gaurav

FTS PRICES: **£7,997** **£11,997** **£14,997** Always lead with monthly finance figure
Starter Mid Premium

You are responsible for the hands-on build, launch and daily optimisation of all FTS paid campaigns. Work closely with Nikhil who owns strategy — you execute. **Rule: never launch a campaign without confirmed tracking.** If Rohit has not confirmed that conversion tags, call tracking, and pixel are all firing — do not launch and escalate to Nikhil immediately. This week: build Google + Meta FTS campaigns, launch Thursday, set up Open Day ads in draft, and begin daily optimisation. Every task has a status box — fill in daily.

FIXED INSTALLATIONS — INFRASTRUCTURE FIRST

FIXED: CONFIRM ALL TRACKING BEFORE BUILDING ANYTHING

★ **Confirm with Rohit that all tracking is in place — do not build campaigns until this is done.**

Message Rohit now and confirm each item:

- ✓ Google Ads conversion tag firing on form submission (test it — use Google Tag Assistant or GTM Preview)
- ✓ Google Ads phone call conversion tag firing when call tracking number is clicked
- ✓ Meta Pixel active on all 4 practice websites — verify with Meta Pixel Helper Chrome extension
- ✓ Call tracking numbers set up — one per location per channel (Google / Meta / Organic)
- ✓ GA4 tracking form fills, phone clicks, and WhatsApp opens

If ANY item is not confirmed — document what is missing and escalate to Nikhil. Do not launch campaigns without this being resolved.

PROOF: Screenshot of Google Tag Assistant + Meta Pixel Helper showing all tags firing on the correct pages — send to Nikhil and Rohit.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Audit all existing Google Ads and Meta ad accounts.**

What campaigns currently exist? What's spending? What's paused? Note quality scores, historical CPCs, impression share, and any obvious wasted spend (broad keywords, irrelevant search terms, low CTR ads). Write a short findings summary and share with Nikhil before end of Monday.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Set up the UTM parameter naming convention for all campaigns.**

All ads must use consistent UTM tags so GA4 reports traffic cleanly. Convention:

utm_source=google OR facebook | utm_medium=cpc | utm_campaign=fts-[location] |

utm_content=[ad-creative-name]. Document this and share with Nikhil and Rohit so GA4 traffic is correctly attributed from day one.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

GROWTH: GOOGLE ADS CAMPAIGN BUILD

★ **Build the Google Search FTS campaign structure for all 4 locations.**

Build either one campaign per location, or location-based ad groups within a single campaign (confirm with Nikhil which approach). For each location, create these 4 ad groups:

- **Ad Group 1 — Core FTS:** "dental implants [town]", "fixed teeth [town]", "teeth implants [town]", "implant dentist [town]"
- **Ad Group 2 — Problem aware:** "missing teeth [town]", "loose dentures [town]", "broken teeth [town]", "failing teeth [town]"
- **Ad Group 3 — Solution aware:** "all on 4 [town]", "teeth in a day [town]", "fixed denture alternative", "permanent teeth [town]"
- **Ad Group 4 — Near me / competitor:** "implant dentist near me", "best dental implants [town]", "affordable dental implants [town]"
- **Negatives:** NHS, free, cheap, DIY, temporary, children, whitening, braces, Invisalign

Set bidding to Maximise Conversions initially. Switch to Target CPA once 30+ conversions are recorded. Ad schedule: 7am–9pm Mon–Sat, 9am–6pm Sun.

PROOF: Screenshot of campaign structure in Google Ads (draft) — share with Nikhil for sign-off before publishing.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

★ **Write 3 RSAs (Responsive Search Ads) per ad group.**

Headlines to use (pick 10–15, rotate across ad groups): "Fixed Teeth Solutions — [Town]" | "From £7,997 All-Inclusive" | "Free Consultation Available" | "Permanent. No Dentures. Life-Changing." | "Finance From £X/Month" | "0% Finance Available" | "Rated [X]★ — [Practice Name]" | "Same Day Consultations — [Town]" | "Missing Teeth? We Can Help" | "Replace Dentures Permanently"

Descriptions: Lead with the emotional transformation ("wake up with permanent teeth"), include finance option, mention free consultation and local location. Max 90 characters each.

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

GROWTH: META ADS BUILD

★ Build the Meta Lead Generation campaign for FTS.

- **Campaign objective:** Lead Generation with Instant Form
- **Ad Set 1 — Cold:** 10-mile radius around each practice, age 45–70, interests: dentures, dental health, retirement, health & wellbeing, Active & Healthy Living
- **Ad Set 2 — Warm:** Website visitors last 30 days + Facebook/Instagram engagers last 60 days (uses Pixel data — confirm with Rohit that Pixel is active first)
- **Instant Form fields:** First name, Phone, Which practice is closest? (dropdown with all 4 locations), "Do you have missing teeth or wear dentures?" (Yes / No / Considering)
- **Auto-reply after form submit:** "Thanks [FirstName] — we'll call you within 3 minutes! "
- **Note:** if mentioning finance in the ad copy, include FCA-compliant disclaimer text

PROOF: Screenshot of Meta Lead Gen campaign in draft — share with Nikhil for sign-off.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

★ Build Meta Retargeting campaign for FTS.

Audience: all website visitors + video viewers + form openers in last 30 days. Creative: patient testimonial video or before/after static. Ad copy angle: "Still thinking about fixed teeth? Book your free consultation this week — no pressure, no commitment." CTA: Book Now → FTS landing page.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Set up the Open Day Meta campaign in draft — ready to launch next week once date is confirmed.**

Objective: Lead Gen or Event Responses. Audience: same as FTS cold + slightly broader (40–75, local radius). Copy: "Join us for a FREE Fixed Teeth Solutions Open Day at [Practice]. Meet our team, see real before & afters, get a free consultation. Limited spaces — register now." Keep in draft — Nikhil approves launch once Nadia confirms the Open Day date.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

GROWTH: LAUNCH DAY

★ Launch Google Ads FTS campaigns — confirm a test conversion fires first.

Before going live: submit a test enquiry from the Barnet landing page. Confirm the conversion shows up in Google Ads (allow up to 3 hours to register). Start with 2 locations only — Barnet + one Kent location. Monitor for the first 4 hours: watch for disapproved ads, zero impressions (budget too low or keywords too narrow), and spend spikes from broad match terms. Add the other 2 locations once the first 2 are confirmed working.

PROOF: Screenshot of live Google Ads campaigns showing impressions and spend — send to Nikhil, Nadia and Gaurav by 6pm Thursday.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

★ Launch Meta FTS Lead Gen campaigns.

Check for ad disapprovals within the first hour (Meta usually reviews within 30 minutes). Verify leads are appearing in GoHighLevel — ask Rohit to confirm a test lead came through correctly. Set a daily spend cap (£50–75/location) to control day-one spend. Check frequency and CPL after 6 hours.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ Set up your daily morning optimisation routine (every weekday, 9am, 15 minutes).

Google: check budget pacing (on track or overspending?), conversion rate (dropping = landing page issue), search terms report (add irrelevant terms as negatives daily). Meta: check CPL (rising = audience fatigue or wrong creative), lead quality (are practice managers converting these to consultations?), frequency (if above 2.5 — swap creative).

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ Set up Google Display / Remarketing campaign for FTS.

Target: all website visitors in the last 30 days. Creative: before/after banner with "Book Free Consultation" CTA. Sizes needed: 300×250, 728×90, 160×600, 320×50 (mobile). Get banner images from Fatima — she is designing these this week. This campaign is a low-cost touchpoint that keeps FTS in front of people who visited the site.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

REVIEW + REPORT

★ **Send performance report to Nikhil by 3pm (he includes it in his 4pm report to Nadia/Gaurav).**

Google section: Spend | Impressions | Clicks | CTR | CPC | Conversions | Conv. Rate | CPA per location. Meta section: Spend | Reach | Impressions | CPM | Leads | CPL | Lead quality notes (are they converting?). Combined summary: Total leads this week | Best performing location | Best performing ad | Issues found.

PROOF: Performance report (screenshot or Google Sheet) — send to Nikhil by 3pm Friday.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Search terms review — add all irrelevant terms as negatives.**

Go through every search term that triggered an ad this week. Any term that is clearly irrelevant (e.g. "NHS dental implants", "cheap teeth", "denture cream") — add as a negative keyword immediately. Pause any ads with CTR below 1% or zero conversions after 100+ clicks.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Review Meta lead quality with practice managers.**

Message Charlotte, Sophie and Serena: "How are the FTS leads from Facebook? Are they converting to consultations? Right age group? Right location?" Document what they say and adjust targeting for Week 2 accordingly.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done

If not done — Reason: _____

Next step: _____

☐ **Plan Week 2 A/B tests and brief Nikhil.**

What should you test next week? Ideas: different headline in top-performing ad group | finance-first vs life-change angle in Meta copy | before/after static vs video creative | different age bracket (40–55 vs 55–70). Write a one-paragraph brief for Nikhil before end of Friday.

STATUS (FILL IN DAILY)

☐ Done ☐ In Progress ☐ Not Done
