FTS social media content speaks to a different audience than general dentistry — you're reaching people aged 45–70 who have missing teeth, wear uncomfortable dentures, or are embarrassed about their smile. The emotion is deeper: dignity, confidence, eating without pain, smiling freely in photos. Your content must speak to that. This week: fix all accounts, start posting FTS content, and begin the Open Day teaser campaign. Every task has a status box — fill in daily.

FIXED INSTALLATIONS — ACCOUNT SETUP

FIXED: ACCOUNT AUDIT + BIO UPDATES

★ **Audit all social accounts across all 4 practice locations (Instagram, TikTok, Facebook).**

Check every account today and fix immediately:

- Is "Fixed Teeth Solutions" or "Dental Implants" mentioned in the bio? If not — fix today.
- Is the link in bio pointing to the FTS landing page? Get the URL from Rohit and update all bios.
- Facebook: Is the CTA button set to "Book Now" → FTS landing page? Fix if not.
- Instagram Highlights: Create an "FTS" highlight, a "Patient Stories" highlight, an "Our Team" highlight — even if they start empty.
- Profile photos and cover photos: are they professional and up to date?

Document what you found and what you changed for each account.

PROOF: Screenshot of updated bios on all accounts — upload to shared folder.

GROWTH: CONTENT PLAN + FIRST POSTS

★ Plan this week's content output and write all captions today.

Minimum output this week per practice brand:

- **3–5 short-form videos (15–60 sec):** FTS before/after reveals, patient testimonials, "what is fixed teeth" explainer, "life after FTS" emotional story, finance explainer
- **2–3 static or carousel posts:** before/after comparison, pricing graphic, team photo
- **Daily stories:** polls ("Are you missing teeth?", "Do you wear dentures?"), Q&As, behind-the-scenes

Every caption must open with a scroll-stopping hook — the first line determines whether someone stops scrolling:

- "She hadn't smiled in 7 years. Then she got FTS. Watch what happened "
- "Did you know you can have permanent teeth from £7,997? No dentures. No wobbling. Just your smile back."
- "This is how we replace missing teeth permanently — and it's from £X/month "
- "The moment she saw her new teeth for the first time (with her permission)"

Every caption must end with a CTA: "Book your free consultation — link in bio."

★ Post the first FTS content piece today — do not wait for video from Fatima.

If no video is ready yet, post a before/after static image or a "Did you know?" educational carousel about fixed teeth. Something going live today is more important than waiting for the perfect piece. Coordinate with Fatima on what she has available and lock in a filming schedule for Wednesday.

OPEN DAY: TEASER CAMPAIGN

★ **Begin the Open Day teaser campaign on all platforms today.**

Do NOT reveal the date or full details yet — build curiosity and anticipation first. Post these in sequence:

- **Wednesday Story:** "Something exciting is coming to [Practice]... " — simple text on a branded background
- **Wednesday/Thursday Feed post:** "We're hosting a FREE open day — free consultations, meet the team, see real results. Details coming soon — follow us so you don't miss it! "
- **Thursday Story:** "We're planning something we've never done before. Stay tuned." — another mystery teaser

The full reveal (date, location, how to register) comes next week once Nadia confirms the date.

Design a simple, branded WhatsApp-shareable image: "Refer a friend → you get £200 off. They get permanent teeth from £7,997." Keep it clean and professional. Send to Charlotte, Sophie and Serena so they can share with patients. If you don't have design software — Canva (free) works perfectly.

THURSDAY 3 July

Day 4 of 5

GROWTH: FINANCE + EDUCATIONAL CONTENT

★ **Post a "Finance explainer" Reel or TikTok today.**

Just your smile back." Film face-to-camera (you or a clinician) or use text overlay on B-roll from Fatima. Keep it under 45 seconds. Include subtitles — 80% of people watch without sound.

☐ **Send Nikhil and Richard the 2 best-performing organic posts this week for paid ad testing.**

Look at which posts got the most engagement (saves, shares, comments) by Thursday. Screenshot the analytics and send to Nikhil and Richard. Organic-proven content almost always performs better in paid ads than content made specifically for ads.
